## HIGH PERFORMANCE COILOVERS

**Looking for performance?  
Want to be able to adjust your  
height? Want maximum grip,  
handling and corner stability?**

XYZ Coilovers offer all that with track proven performance to suit your individual demands. XYZ's race precision engineering combined with Australian custom design enables the lowest ride possible with exceptional comfort and handling. A 5 year warranty gives you peace of mind a premium quality product is supplied.

### UNIQUE DESIGN FEATURES

- Driver tune-ability for changing road condition
- Race precision engineered for peak performance
- Maximum drop in ride height
- 30 Stage tuneable shock
- 5-way adjustability - Spring - Body - Bump - Rebound - Camber

### YOUR XYZ BENEFITS

- ✓ Lowest ride possible with superior ride quality
- ✓ Aggressive road handling and race characteristics
- ✓ Ultimate high performance on and off the track
- ✓ 5 year warranty\*

### XYZ RACING MOTORSPORT TECHNOLOGY

XYZ Racing takes motorsport technology to the street with a 5 way adjustable coilover system and a 30 stage tuneable shock for precise tuning.

Racing sports mono tube design consists of a generous 45mm piston for ultimate control and shock absorber consistency that pushes the limits of stability and grip. Spring and body adjustment means flexibility to have your ride either on the ground or sports lowered.

### XYZ COILOVERS - SUPER SPORT TYPE: SS

- Top of the line sport mono-tube damper
- Spring and Body adjustable featuring steel lower mounts (MacPherson Strut)
- Large piston diameter of 45mm with high quality internal components
- 30-way adjustable dampening for changing road conditions or weekend race.
- 5 YEAR WARRANTY \*

### HOLDEN COMMODORE XYZ COILOVERS SUPER SPORT

XYZ Racing Australia has undertaken years of research and development to refine its range of Commodore coilovers. From VB to current model, XYZ has a solution to suit your needs and features the most adjustment on the market in both height and damping control. XYZ Racing also offers a range of products to complement the coilover systems such as camber tops through to varied spring rates which means XYZ can tailor a solution to your needs and get your Commodore handling like it's on rails.

### FORD FALCON XYZ COILOVERS SUPER SPORT

XYZ Racing has every model Falcon covered, from XK to FG-X. The XK-XF system is designed with a very unique feature that eliminates the spring saddle and allows height and damping adjustability with a progressive rate spring. E-Series system features double height adjustability front and rear whilst still being 100% bolt in. The BA-FG-X kit incorporates front double height adjustment and a bolt in height adjustable platform in the rear and externally adjustable shocks to allow high levels of fine tuning on the go.

### EARLY MAZDA COILOVERS SUPER SPORT

XYZ Racing Australia has developed a unique solution for early Mazda models. From R100 to the RX7 every model is supplied with specific adjustable tops with no modifications to install. Another unique feature is the ability to adjust both spring and body, so no matter what height is required full adjustment is available. Models featured are as follows, the R100, 1200, 1300, RX2, Capella, RX3, 808, 323, RX4, RX7. All models designed in-house and tops are available in either anodized black or silver.

### MUSTANG COILOVERS SUPER SPORT

XYZ Racing has the early USA model 64-73 and late Aussie delivered mustang models covered. The early mustang systems are designed with a very unique feature that eliminates the spring saddle and allows height and damping adjustability with a progressive rate spring. For the later models the coilover system is 5 way adjustable and with its massive range of adjustment will transform the car from highway cruiser to track weapon.
